## Instructions

1. Punch all the pieces from the list above and sponge the Kiwi piece with Kiwi Kiss ink.
2. Cut the mouth on the Alligator (watching the video might make this easier).
3. Attach the Black  $\frac{1}{4}$  Circles to the  $\frac{1}{2}$  White circles for the eyes and then add them to the Alligator.
4. His teeth are made with a strip of white cardstock and you use the Scallop Edge Punch. I cut each piece with 4 scallops. Attach the teeth and start with the top teeth so that it overlaps the bottom.
5. Attach the  $\frac{1}{8}$ " Black Circles to the Kiwi Circles and add his nose.
