

## Photo Coaster Ornament

Good afternoon,

My project today is an **Photo Coaster Ornament** that I made using the **4" Circle Coasters**. You can use either the Heavy weight or Medium weight and if you're looking for them you can find them on my **Chic n Scratch Shack**. [Click here](#) if you'd like to go there now.

They're really easy to make them and you can make a bunch real fast. I used the **Christmas Cocoa Specialty Paper** and I cut it in a 4 x 4 square. Apply adhesive to the paper and attach it to the Coaster. Trim the extra paper off and then sand the edges with a **Sanding Block**.

The **Round Tab punch** works perfectly for the top of the ornament and you'll need around 16" of **White Taffeta Ribbon**.

This is a picture of Chase & Brook back when they were really little (if my memory serves me correct, that was 1998). Brook has red paint on her nose because she was in a Christmas play at preschool.

Extra Notes: Today is my **Stampin' Up!** anniversary. I've been a **Stampin' Up! demonstrator** for 7 years :) And today is the internet's birthday. The Internet is 40 years old today.... isn't that interesting?

Here's the Supply List:
